

Illuminating the human connection
between pedagogy and professional performance

Design your curriculum priorities with the

PRIORITIZING THE STANDARDS

switchkit

The Brilliance Project

The Brilliance Project is a human-centered, values-driven, professional learning partner for educators, leaders, schools, districts, and whole education systems.

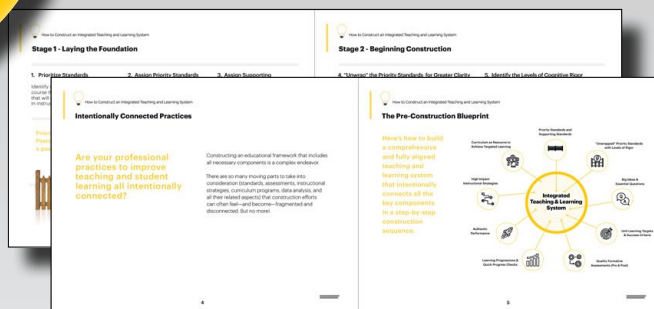

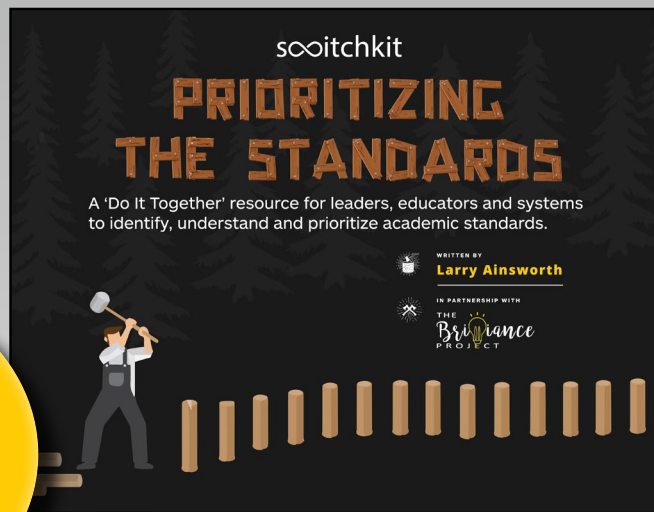

Through our embedded research and deep consultancy experience, we understand the challenges of mapping and scaling professional learning to your ever evolving instructional needs.

Professional performance is more than pedagogical aptitude. We curate *joyful learning* experiences that meet educators and leaders at their point of need, increasing *efficacy* and elevating their *wellbeing* to flourish and succeed.

Prioritizing the Standards

Educators, leaders, and educational systems are challenged with the task of teaching an expansive range of academic standards. Balancing competing curriculum demands can be overwhelming, often leading to frustration, confusion, grade misalignment and deleterious effects on student learning. Prioritizing standards is a proven strategy and method to counter this.

All standards must be taught, but the priority standards receive greater instruction and assessment emphasis. Prioritizing standards is not about eliminating or ignoring non-priority standards but rather allocating the greatest amount of instruction and assessment time to the high-priority standards that are essential for student success.

Resource Overview

The Prioritizing the Standards Switchkit is a 'Do It Together' resource for educators, leaders and systems to identify, understand and prioritize academic standards. It provides all the resources and training required to deliver your own professional learning workshop on Prioritizing the Standards.

Crafted by globally renowned educators, Larry Ainsworth and Dr. Kristin Anderson, The Priority Standards Switchkit is a powerful and practical resource that offers a proven design and implementation framework for identifying, classifying, and perpetually renewing academic standards.

Each Switchkit is a comprehensive solution that includes recorded webinars, engaging presentation source files, expert speaker's notes, in-depth guidebooks, pedagogical tools, and authoritative insider tips. You can also take your professional growth to the next level with the optional coaching and implementation support from our team.

Forever Access with a Perpetual License

All Switchkits are paired with a school or district-wide **perpetual license** so the professional learning can be repeated independently in-house as often as needed, for revision and reinforcement with existing and new staff, for a one-time initial purchase fee.

Prioritizing the Standards Switchkit: What's Included?

Instructional Webinars & Presentation File

The Prioritizing the Standards Switchkit includes access to two on-demand webinars presented by renowned educator, Larry Ainsworth.

Webinar 1: Educator Version - The model presentation recorded by Larry Ainsworth demonstrates the content design and how the presentation is intended to be delivered to educators. The source presentation file (PowerPoint) is provided, along with speaker notes.

Webinar 2: Coaching Version - The coaching version recorded by Larry Ainsworth provides rich implementation commentary to train your own in-house facilitators how to deliver the workshop material to an audience.

Companion Guidebooks

Three digital implementation guides are included:

- **Prioritizing the Standards - A Do-It-Together Guidebook** provides a deep dive into the theory and practice of Prioritizing The Standards.
- **Prioritizing the Standards and Distance Learning Guidebook** provides is an implementation guide for remote and virtual learning environments.
- **How To Construct an Integrated Teaching and Learning System Guidebook** details Larry Ainsworth's proprietary **Integrated Teaching and Learning System**, documenting broader considerations for learning environments beyond Prioritizing the Standards.

Implementation-Ready Agenda's

Two digital **implementation-ready** agenda's are included for on-site or remote delivery, catering to the different formats that schools or districts may wish to conduct their professional learning:

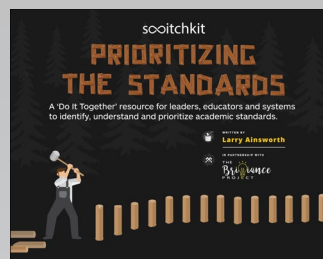

- A **single day** workshop format
- A **multi-session** version of the workshop that caters to implementation over multiple days

Optional Consulting Support Add-on

The Prioritizing the Standards Switchkit is designed to be a self-guided professional learning pathway. However, options are available to include additional consultancy to deepen concepts and support your implementation across schools and districts.
